

## CLINIC WEBSITE — PROFESSIONAL STANDARD STRUCTURE

This is not “just a design”.

This is what makes clinic owners say:

“This looks serious.”

---

### 1 Hero Section (First Impression)

#### Must Have:

- Clinic name
- Tagline (e.g., “Compassionate Care for Your Family”)
- Doctor image or clinic interior
- Primary CTA button:
  - “Book Appointment”
- Secondary CTA:
  - “Call Now”

#### Goal:

Trust + clarity in 5 seconds.

---

### 2 About the Clinic

#### Must Include:

- Short intro
- Mission statement
- Years of experience
- Certifications
- Clinic photos

#### Optional:

- Timeline of achievements
- 

### 3 Services Section (Very Important)

**Must Include:**

- Service cards with:
  - Icon
  - Service name
  - Short description

**Examples:**

- General Consultation
- Diagnostics
- Pediatric Care
- Dental Care
- Laboratory Services

Make it expandable for custom clinics.

---

** Doctors / Team Section****Must Include:**

- Doctor photo
- Qualification
- Specialization
- Experience
- Appointment button

This increases trust massively.

---

** Appointment Booking System (Critical Element)****Must Have:**

- Name
- Phone
- Email
- Preferred date

- Time slot
- Service selection
- Submit

Bonus (Premium demo):

- Calendar UI
- Admin booking dashboard preview

This is your future upsell to automation.

---

## **6 Testimonials Section**

**Must Include:**

- Patient name
- Short feedback
- 4–5 sample reviews

Social proof = conversion.

---

## **7 Emergency Contact Banner**

Simple but powerful:

“24/7 Emergency Care Available”

Call Now button

Especially for serious clinics.

---

## **8 Location & Map Section**

**Must Include:**

- Address
- Phone number
- Email
- Google Map embed
- Opening hours

---

### **9 Footer Essentials**

- Quick links
- Services
- Contact info
- Social media
- Privacy Policy
- Terms

Professional clinics always include policies.

---

### **10 Technical Must-Haves (Non-Design)**

All 4 devs must include:

- Responsive design
- Fast loading
- SEO-friendly headings
- SSL ready
- Contact form validation
- Clean URL structure
- WhatsApp quick chat button (India market powerful)
